

Main Features/Benefits of the Mark Bric BannerUp

- **Guaranteed for 10 Years.** If it breaks... we fix it!
- **Failure rate of less than 0,1%** - Less than 1 in 1000 units needs repair.
- **The heavy duty cassette** protects the banner and the rewind mechanism against shocks and other damages - **extra thick 1,8 mm / 0.070"** aluminium makes it **the toughest unit on the market.**
- **Retracting mechanism is extremely rugged and built to last.** 50 mm (2.125") diameter aluminium roller and heavy duty steel spring delivers bullet-proof endurance.
- **Accepts all substrates** up to a recommended maximum thickness of 0,45 mm ranging from the thinnest of printable fabrics to laminate-encapsulated films.
- **Install or change banners in seconds with Patented Banner Quick Change** (no need for additional cartridge) - (US Pat. # 7,040,372; Eur. Pat. # 1285421; China Pat. ZL00819992.2).
- **Standard mounting rails use only 3M brand-VHB adhesive tape** for maximum security.
- **Optional snap-lock Mark Bric BannerRail™ top rail** for mechanical clamping of especially difficult banner materials.
- **Easy Tension Adjustment**--Adjust to suit, re-tension in the field.
- **Rewind path prevents cassette from scratching banner surface.**
- **Presents banner vertically, straight-up**, thanks to careful design and heavy-duty steel support poles.
- **Sectional support pole provides many benefits** – use the top section to erect tall banners without the need for ladders or high-reaches; no shock cords to break.
- **Equipped with 4 hideaway swivel stabilizer feet**—use 2, 4, or none, depending on need.

- **Available 50w halogen spotlight alternatively 18W LED spotlight** mounts to the top rail without clamps or screws, designed for safety and compatibility in venues worldwide.
- Each unit is packed in a **unique padded vinyl/canvas carrying bag**, designed to protect against shock.
- **Hard-shell molded transport case (“flight-case”)** is also available as an accessory for the popular 88 cm (3 ft.) model.
- **Each unit includes an accessory pack** comprised of complete instructions, nylon push pins (use as desired for added banner-attachment security) and top-rail connecting strip to align multiple banners side by side.
- **Multi-height capability**, beginning at tabletop height and up to **3 meters (10 ft.) height!**
- **Available in 7 widths:** 25 cm (10”), 60 cm (2 ft.), 88 cm (3 ft.), 100 cm (3.3 ft.), 120 cm (4 ft.), 150 cm (5 ft.), 240 cm (8 ft.), with double sided model available in the popular 88 cm (3 ft.) width.
- **Available in 2 colours:** Silver and black.
- **The Mark Bric “Big Plus” units of up to 4,5 sqm graphic area** offer completely new and improved possibilities to display photos and text messages in retractable (roll-up) banner cassettes.
- **Large quantity orders can be customized** in terms of colour, width, height etc.
- **Well over 100.000 units sold**, tested and proven around the world.
